President's Notes

Fellow Residents,

As we enter November, we warmly welcome the start of the holiday season. I am sure we are all looking forward to gathering with family and friends in the weeks ahead.

November is also when the Board establishes our upcoming operating budget. Please be assured that we are carefully reviewing every line item to ensure we keep operating costs as low as possible.

In addition, the Board is moving forward with updating common area landscaping to comply with state requirements under AB-1572. Our initial focus will be replacing the turf areas in front of the Clubhouse and the Sports Center. These transformed spaces will serve as a visual guide for residents interested in converting the landscaping outside their own units.

As always, the Board sincerely values your input and active participation in our community. Please mark your calendars for the following Holiday events.

- **Holiday Tree Trimming Group - Nov 28th**
- **CIC-Potluck Dinner – Wednesday, Dec. 7th**
- **Cookies and Carols – Sunday, Dec. 13th**

Best regards

Ron Berry, **Board President**

General Manager's Notes

- All the main electrical panels on the 42-Bungalows were replaced. Four electrical enclosures remain to be completed.
- Eight garage roofs were completed this year. Garage roof replacements will resume, weather permitting, in January.
- Painters are working in Area 6. Please remove all items from the balcony so they can complete the necessary repairs.

Rain Preparations:

- Storm drains were cleared and jetted.
- Sandbags were distributed. If you did not receive sandbags or require some, please contact the office.
- Maintenance began cleaning out gutters. If they have not gotten to yours, please be patient; we only have three maintenance technicians.
- Please inspect all your windows and sliding glass doors for any cracks, openings, gaps, or other potential issues that could allow a water intrusion during the rainy season.
- Maintenance has also been trenching in areas of concern, to prepare for the rain.
- Fences continue to be replaced, beginning with the worst-case scenario.
- Feeding wildlife, including squirrels, feral cats, birds, and other animals, is against the rules. It attracts rodents, insects, and unwanted pests.
- Smoking is prohibited on balconies, patios, lawns, doorways, and all common areas. Torrance has a No Smoking City Ordinance on shared wall residence. Please use designated benches for smoking.
- The elevator was inspected and meets all state requirements. The new permit is on its way.
- Please remove all standing-water in receptacles around your units. This will prevent mosquitos and spreading illness.

Kind Regards,

Janet Garcia - **CMCA, AMS, PMP General Manager**

FIRE PREVENTION MONTH · KITCHEN SAFETY TIPS

On the evening of **October 15**, a Neighborhood Watch member heard several smoke detectors going off in an Area 4 unit. Nearby neighbors hadn't noticed. Building Coordinator Vicki quickly provided the resident's phone number, but after a dozen calls, knocking and ringing the doorbell, no one answered, so we called Torrance Fire. Firefighters climbed to the rear upper deck, saw smoke inside, entered and turned off the stove. Items left on the stovetop had filled the unit with smoke, but there was no fire. **Firefighters said that if we hadn't called when we did, it likely would have become something much worse.**

Torrance Fire on scene, October 15. Neighborhood Watch is sharing these lessons from the call.

What We Learned

Building Coordinators: know your neighbors
Keep their phone numbers somewhere you can grab them fast. Vicki's quick help made all the difference.

Plan for a spare key
Leave a copy with a trusted neighbor, or agree on a discreet hiding spot with someone you trust.

Alarm still sounding after 30 seconds?
Check on it. Call the neighbor or your Building Coordinator.

Several alarms going off? Call 911
Don't assume the resident has called. They may not be home, or they may have fallen or passed out.

Closed blinds can hide trouble
There was no smoke or smell outside. Firefighters had to climb up and look through a rear window to confirm it. Keep in mind that blinds can keep police and fire from seeing that you need help.

Lesson learned: always call. Thank you, Vicki, for being a Building Coordinator who had her neighbor's number on hand. It made the decision to call Torrance Fire easier once we knew the resident wasn't home.

Dumpster Trap Warning

Trash enclosures routine trips to feed the dumpsters (garbage or recyclables) is a necessary task, and like me, sometimes a feeling of relief may come over you.

Things you don't want, or need are out of your home. You know that Conservation Club volunteers regularly collect your CA CRV marked bottles and other containers from the bins and drive them to Recycling Centers for the deposits, money that benefits our New Horizons community.

Perhaps, like me, you experience a stiff breeze that slams the enclosure door shut locking you inside. The one time did not secure/anchor the gate door's metal rod into the outside ground hole stopping the door from closing behind me. After immediately scolding myself for being negligent, I proceeded to bang my empty waste basket on the top edge of the enclosure for it to be visible and shouted *"HELP! SOMEBODY HELP!"* repeatedly.

It is hard for my hand to squeeze between the shut doors to lift the heavy rod. At 5'1" tall, there was no way to reach over the gate to lift the iron rod when it's deep in its closed-door slot! I even contemplated climbing on top of the dumpster to attract attention! After some time yelling for help, at last a good Samaritan came to my rescue. To her surprise, she didn't even know the purpose of those holes in the ground! Once released, we agreed that there should be a mechanism for releasing the bin doors from the inside. Until then, consider this a warning for newcomers and residents regarding securing the iron rods into those holes in the ground.

Avoid falling victim to the Dumpster Trap!

Elsie Wu, **Resident**
